HOBBIES AND INTEREST

Hobbies

In my free time, I prefer to be active, I like walking and cycling when the weather allows. In the summer, I always go kayaking with my mother to Lake Balaton, and in the winter, I usually go to gym.

Interests

I am very interested in CMS systems, PHP coding, databases, UI / UX solutions, e-commerce websites building. I enjoy working with them and building them. I want to deal more deeply with website development technologies, so I take part in online courses.

OTHER EXPERIENCE

I am self-taught and keen to maintain an up-to-date knowledge about current website development trends at all times. I have the skills to work using PHP frameworks such as CAKE PHP, Laravel and I am competent at JavaScript libraries like JQuery, AJAX, Typescript, AngularJS, ReactJS and JavaScript frameworks like VUE.js and NODE JS. CSS 3 and CSS framework like Bootstrap5. WordPress, Joomla. In addition, I am familiar with GIT, GITHUB and GitBucket. Docker.
